

## SOLUTIONS OVERVIEW

Protecting your personnel and valuable equipment is our paramount concern. Our enclosures are designed to withstand the severe environments of a plant or manufacturing facility. Protecting your employees from the hazards of machinery all while safeguarding your machinery and materials from particulates, humidity, or temperature fluctuations.

Our prefabricated machine enclosures are built to suite your unique needs. The modular design allows us to quickly design and build enclosures that meet or exceed our customers' expectations.

## AMERICAN MADE MACHINE ENCLOSURES

Machine Enclosure.Com has been designing, manufacturing, and installing modular machine enclosures for over thirty years. With three manufacturing facilities across the United States, we have proudly served America's top manufacturers, both large and small.

Our years of experience have given us the knowledge and skills needed to provide our customers with the best and easiest modular construction process possible.

See for yourself how we are making modular easy for everyone.

## ENCLOSURES

- CNC enclosures
- Laser rooms
- CMM enclosures
- Print enclosures
- EDM enclosures
- Pump enclosures
- 3D printing enclosures
- Custom enclosures

## BENEFITS

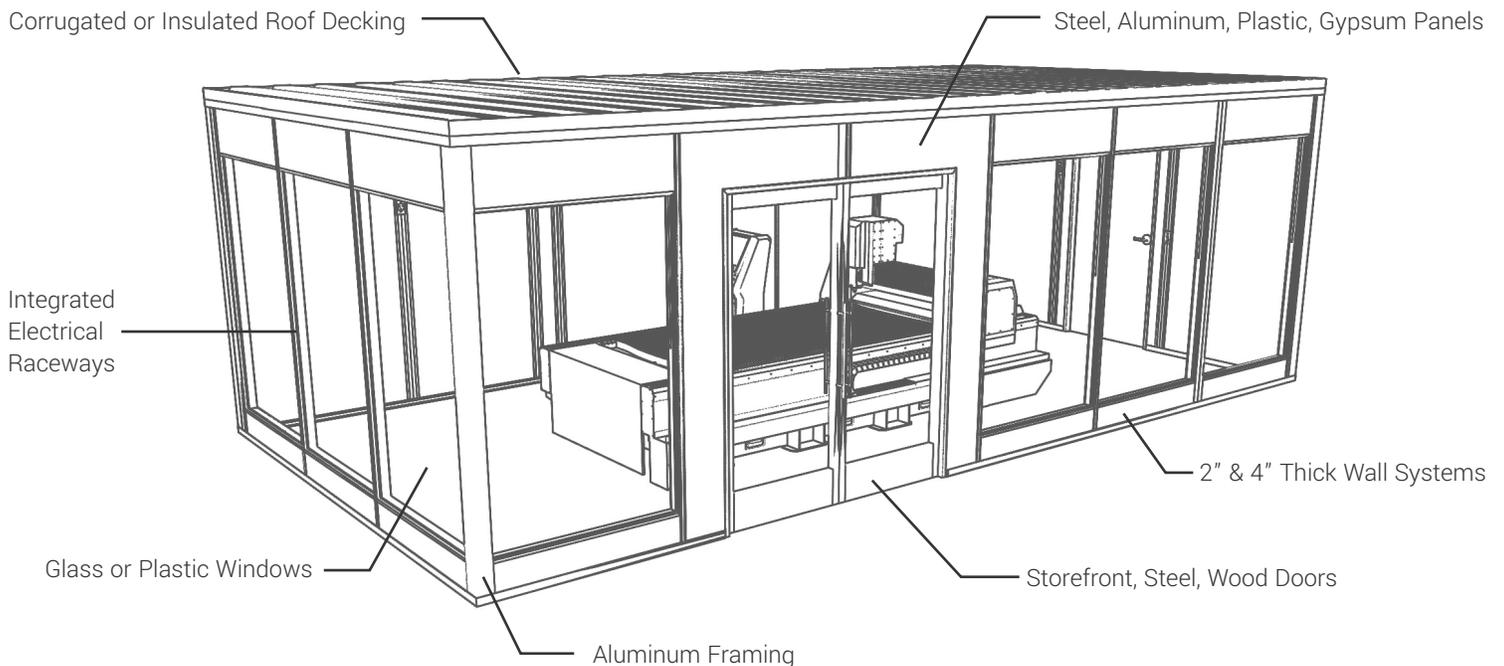

Modular construction has many benefits to traditional construction. Listed below are just a few.

- Shortened construction times save money and eliminate production downtime
- Reconfigurable designs can adapt with the changing needs of your business
- Prefinished panels eliminate the need for messy painting or finishing
- Aluminum framing ensures that your enclosure will not rust or corrode
- Brand matching paint or signage available
- Faster depreciation than traditional construction under IRS code section 179
- Provides a clean, temperature controlled environment to help reduce rejection rates and increase profit
- All products are manufactured in the United States
- Replacement parts always available

Offering a wide array of options, Machine Enclosure.Com's modular wall systems provide our customers with a nearly infinite number of possible enclosure configurations. Each of our available options offers a unique benefit, enabling us to design and build an enclosure that best suits the needs of the user, machine, and environment.

Whether you are looking for a laser room with laser protective glass, a plasma cutting enclosure with a roll up door for material handling, or a 3D printing enclosure that can be wired with video monitoring cameras, we have you covered.

Below is a look at just a few popular options we offer:

An Allied Modular Building Systems Brand

**HQ: ORANGE CA**  
642 W Nicolas Ave  
Orange, CA 92868

**GOODLETTSVILLE TN**  
414 Oak Bluff Ln  
Goodlettsville, TN 37072

**AUSTIN TX**  
7000A Burlison Rd #175  
Austin TX 78744
